Last updated: July 2023

PROFILE

I am an economics PhD student at Duke University. I previously worked as research assistant at the Economics Faculty at Universidad de Los Andes, Colombia, working for Marcela Eslava on firm dynamics, productivity, and market power. I hold an M.A and a B.A. in economics from Universidad de Los Andes. I am primarily interested in approaching problems through empirical work with structural models. My current research interests are in firm dynamics, innovation, trade, market power, economic development, and applied econometrics. I also work on other projects on internal migration and displacement in Colombia and gender bias in student evaluations of teaching.

EDUCATION

Ph.D. Economics, Duke University .	2022 - Present
M.A. Economics, Universidad de los Andes - Colombia (<i>cum laude</i>).	2019 - 2021
B.A. Economics, Universidad de los Andes - Colombia (<i>cum laude</i>).	2015 - 2019
